2016

ANNUAL REPORT

4 SHAREHOLDER INFORMATION

4.1 GENERAL INFORMATION

The Company maintains open and active engagement with its stakeholders, both internal and external, which include shareholders, clients, non-governmental organizations (NGO's) and suppliers during each year. The Company aims to provide its stakeholders with timely, consistent and accurate information. Information is provided, among other means, through press releases, webcasts, conferences, meetings with shareholders and research analysts and the Company website. The Company website provides a constantly updated source of information about the core activities and latest developments. Press releases and Company presentations can be found there under the Investor Relations Center section.

The objective is to inform and to understand SBM Offshore's stakeholders' expectations, identify areas for improvement and create long-term relationships, with the focus on sustainable development. In 2016, in response to feedback from the market, the Company disclosed full year EBITDA and revenue guidance in order to help our stakeholders better understand the anticipated financial performance expected by the Management Board.

SBM Offshore is fully aware that its actions have an impact on many stakeholders that may have different expectations of the Company. Details of the Group Stakeholder Engagement Program can be found in section 6.1.4 Stakeholder Engagement.

4.2 INVESTOR RELATIONS

SBM Offshore releases audited full-year earnings results and unaudited half-year earnings results, which both include full financials, within sixty days after the close of the reporting period. For the first and third quarters, SBM Offshore publishes a trading update, which includes important Company news and financial highlights. The Company

conducts a conference call for all earnings releases and trading updates during which the Management team presents the results and answers questions. All earnings-related information, including press releases, presentations and conference call details are available on our website. Please see section 4.5 for the financial calendar of 2017.

In addition to financial updates, the Company hosts an Annual General Meeting of Shareholders ('AGM'), normally in April of every year. An agenda for the meeting is published six weeks ahead of the AGM and shareholders are asked to vote directly or by proxy on resolutions contained in the agenda. The AGM also offers shareholders a forum for questions and communication, which the Management Board and Supervisory Board view as an opportunity to foster an open dialogue on the direction and performance of the Company. Information related to past and future AGMs, including notices, resolutions, agendas, and minutes, are available on the Company's website.

From time to time, the Company may determine that an Extraordinary General Meeting of Shareholders ('EGM') is required to vote on a resolution, which is too time sensitive to wait for the next AGM. Shareholders will receive notice and an agenda for any EGM in the same manner in which they are received for the AGM and all information will be available on the Company's website. During 2016, an EGM was held on November 30 at which Mr. D.H.M. Wood was appointed as a member of the Management Board for a term of four years up to the AGM in 2021. Mr. D.H.M. Wood has been designated as Chief Financial Officer of the Company by the Supervisory Board, replacing Mr. P.M. van Rossum who has retired.
